Dr.
Mohammed Audu
Foundation

ORGANIZATION PROFILE

WHO WE ARE

The **Dr. Mohammed Audu Foundation and Rehabilitation Center (DMA Foundation)** is a non-governmental and non-profit organization, with the vision dedicated to transforming lives through holistic mental health care, addiction prevention, treatment and recovery, with a community-driven focus. Based in **Adon-Kasa, New Karu, Karu LGA, Nasarawa State, Nigeria.** The Foundation was established to address the critical gap in accessing, evidence-based behavioral health services and to foster a society where addiction recovery and mental wellness is prioritized and destigmatized.

At the heart of our mission is a commitment to **restoring dignity and hope.** We operate at the intersection of both clinical & non-clinical excellence, along side humanitarian services, providing a sanctuary for individuals to overcome substance use disorders while simultaneously leading large-scale sensitization efforts in underserved com**munities.**

OUR VISION

Advancing integrated mental health, addiction prevention, treatment, and recovery across Nigeria to ensure holistic care and dignity for people with Substance Use Disorder.

OUR MISSION

Restoring hope through evidence-based care, mental health advocacy, and collaborative pathways for sustainable community reintegration.

OUR CORE SERVICES

- Substance Use Disorder (SUD) Treatment
- Psychotherapeutic & Counseling Care
- Mental Health assessment & management
- Psychosocial Rehabilitation
- Relapse Prevention & Recovery Support
- Family Counseling & Reintegration Support

FOUNDER/CEO

Dr. Mohammed Audu is Consultant Mental Health Counselor, addiction prevention, treatment and recovery specialist. He's the driving force behind the Foundation. A distinguished expert in behavioral health, who's commitment established the center to provide evidence based treatment, to achieve integrated recovery models for substance use disorders (SUD). His leadership focuses on reducing stigma and fostering community-based resilience through education, policy implementation, recovery and advocacy.

(Support Staff)

LARABA ISA
(Supoort Staff)

ABIGAIL MOSES
(Support Staff)

KEY PROGRAMS

CLINICAL REHABILITATION: RECOVERY & BEHAVIORAL HEALTH

• Detoxification: A scientifically managed process to safely navigate withdrawal symptoms under strict supervision.
• Residental Rehabilitation: A structured, inpatient environment that fosters a community of recovery at the end the program.
• Evidence-Based Therapies: Integration of Cognitive Behavioral Therapy (CBT) and Dialectical Behavior Therapy (DBT) to address the root cause of addiction.

COMMUNITY ADVOCACY: GRASSROOTS SENSITIZATION

We believe that the most effective way to combat the substance epidemic is through proactive prevention and early intervention.

• School-Based Interventions: Interactive sessions for secondary and tertiary students to provide them with psychological resilience skills needed to navigate life through school.
• Policy Advocacy: Working with regulatory bodies and law enforcement to shift the narrative from "criminalization" to "treatment and support".

MENTAL HEALTH AWARENESS EDUCATION: ERADICATING STIGMA

Our Education pillar aims to change the public mindset:

- Public Awareness Campaigns: Utilizing digital media, radio, and Town Halls to normalize conversations around mental health.
- Training: Equipping Primary healthcare workers with the tools to identify early signs of mental distress and addiction in patients and organization.

SOCIAL WELFARE: EMPOWERMENT & SUPPORT VULNERABLE GROUP

Recovery is sustainable if the individual has a dignified life to return to. This pillar focuses on the socio-economic drivers of mental health and partnership.

- Women Empowerment: Specialized programs for women, addressing the unique social vulnerabilities they face, including gender-based violence and economic dependency.
- Vocational Reintegration: Partnership with skill-acquisition centers to ensure that recovering individuals leave our facility with a trade or a pathway to employment.

IMPACT & ACHIEVEMENTS

The Dr. Mohammed Audu Foundation has moved beyond vision to Tangible results. Our work is inpsired by lives restored, the families reunited, and the communities educated. Below are the key milestones that define our institutional success.

CLINICAL MILESTONES & PATIENT RECOVERY

- Successful Rehabilitations: Since inception, we have successfully managed and discharged numerous individuals from our Residential Rehabilitation Program, with a focus on long-term sobriety and mental wellness using all necessary recovery capital.
- High-Capacity Utilization: Our facility consistently maintains a robust occupancy rate, currently providing intensive care for patients across Nigeria and Africa.
- Evidence-Based Success: We have maintained a high success rate in medically supervised detoxification, reducing relapse rates through our integrated Behavioral Health model.

- School to School Engagement: Executed targeted mental health and anti-drug campaign clubs in secondary schools across Abuja & Nasarawa State, equipping students with the psychological resilience to resist drug-related peer pressure.

- Collaborative Awareness: Successfully partnered with numerous government and Non-governmental organization to deliver joint awareness initiative, expanding our reach to vulnerable women and youths.

ORGANIZATIONAL GROWTH & PROFESSIONAL TRAINING

• Staff Capacity Building: We have institutionalized a culture of Continuous Professional Development, with our multidisciplinary team consistently completing global certifications and internal bi-monthly orientations.

- Facility Infrasture: including improved water systems, reliable energy solutions, and secure residential environments to ensure patient safety.

- Strategic Networking: Established standing partnerships with traditional leadership (the Esu of Karu) and professional regulatory bodies (ISSUP Nigeria, CiSMHeDDR, African Suicide Prevention Association in Gambia, African Mental Health Association in Ghana, Counseling Association of Nigeria, NAPTIP, CASSON and NDLEA) positioning the Foundation as a trusted intermediary between the community and modern practice.

Suicide Prevention & Crisis Intervention

• Helpline & Crisis Support: Establishing accessible, confidential hotlines and messaging services staffed by trained counselors to deliver immediate psychological first aid to individuals experiencing acute emotional distress or suicidal ideation.
• Community Mental Health & Awareness: Running localized educational campaigns to dismantle mental health stigma, promote early warning sign recognition, and encourage timely help-seeking behavior.
• School & Youth Outreach: Partnering with educational institutions to implement peer-support programs, resilience-building workshops, and emotional wellness toolkits.
• Counseling & Rehabilitation: Providing affordable, long-term psychotherapy, trauma-informed care, and support groups for survivors and families affected by suicide

Anti-Human Trafficking & Victim Support

• Prevention & Safe Pathways Awareness: Educating at-risk communities (particularly women and youth) on recognizing fraudulent job offers, scam operations, and irregular migration risks.
• Victim Rescue & Crisis Shelter: Offering safe housing, emergency medical attention, and immediate protective services for individuals rescued from forced labor, sexual exploitation, or cyber-fraud compounds.
• Legal Advocacy & Protection: Partnering with law enforcement and legal professionals to guarantee victim rights, provide legal representation, and assist in navigating justice processes against perpetrators.
• Reintegration & Empowerment: Equipping survivors with vocational training, skill acquisition, financial literacy, and psychological recovery programs to facilitate safe reintegration into society.

For Sexual and Gender-Based Violence (SGBV) response, DMAF specializes in:

- Reintegration and Rehabilitation Support: Comprehensive, trauma-informed recovery programs and personal crisis stabilization for survivors.
- Mental Health & Psychosocial Support (MHPSS): Professional counseling,behavioral therapy, and mental health interventions tailored to survivor healing and long-term recovery.
- Crisis Intervention & Advocacy: Immediate emergency support, referral assistance, and community outreach aimed at protection and survivor care.

TOGETHER WE CAN REWRITE THE STORY OF RECOVERY. HEALING MINDS, RESTORING LIVES, BUILDING COMMUNITIES

Dr. Mrs Rose Orianran-Anthony House, Kolajo Ogunnusi Fadeke Street, Adon-Kasa, New Karu, Nasarawa State.
